- Katherine A. Lawler, Iowa State Univ.

THE GLASS & OPTICAL
MATERIALS DIVISION

COMMEMORATES

ALFRED R. COOPER

and requests donations to the Alfred R. Cooper Fund

Dear Colleague,

The glass science and technology community lost a giant when Professor Alfred R. Cooper, Jr., of Case Western Reserve University passed away in 1996.

In his honor, the Glass & Optical Materials Division has established the “**Cooper Session on Glass**” as part of the ACerS annual meeting combined with MS&T. This session focuses on two main events:

- The Cooper Distinguished Lecture and
- The Cooper Scholars Award

The invited lecture is delivered by a distinguished glass scientist or engineer who highlights important advances in glass science and/or technology.

The scholars award is presented to an undergraduate student who has demonstrated excellence in research in glass science and/or technology.

The inaugural Cooper Session took place at the 2007 MS&T meeting in Detroit. See the back of this flyer for a history of lecturers and award winners.

In order to provide ongoing funding for the Cooper Session expenses, ACerS has established The Cooper Fund, which is invested according to approved guidelines of The American Ceramic Society. The long term goal is to raise \$50,000. So far, about \$30,000 has been raised.

Please consider making a gift in Professor Cooper’s memory. While no amount is too small, we encourage you to consider donating \$500 or more to be listed as a “Cooper Fellow” by the Glass & Optical Materials Division in its annual report.

Thank you,

The 2012 Cooper Committee
