

ACerS Membership Path

Find your path with The American Ceramic Society (ACerS)!

Start your journey with The American Ceramic Society (ACerS) membership that best fits your current level and your specific needs.

You'll find that ACerS membership helps you to achieve the career goals that you are aiming for - and some that you didn't envision at the start.

Associate
(1st year complimentary;
2nd year \$40 USD)
Connect with emerging ceramic experts to expand your network while making the transition from student to the professional workforce.

Individual
(\$120 USD)
The key to career success for engineers, scientists, researchers, or manufacturers in the ceramic and glass materials fields.

Young Professionals Network (YPN)

ACerS Individual or Associate members are encouraged to join YPN in order to further advance your career by gaining access to networking with the best in the field.

Global Graduate Researcher Network (GGRN) (\$30 USD)

Join fellow graduate-level research students who have a primary interest in ceramics and glass.

President's Council of Student Advisors (PCSA)

The mission of the PCSA is to engage students as active and long-term leaders in the ceramics community and to increase participation in ACerS at the local, national, and international levels.

Material Advantage Student Program (\$30 USD)

Membership for students who want to make the most of their Materials Engineering experience.

Level Up with ACerS

Lifetime
(\$2,000 USD)

Avoid future dues increases and the need to renew each year.

Retired
(\$65 USD)

Available for those who are 60 years or older, have five (5) or more years of continuous ACerS membership, and are retired.

Senior
(\$40 USD)

Available for those who are 60 years or older, have twenty-five (25) or more years of continuous ACerS membership, and are retired.

Emeritus
(Complimentary)

Available for those who are 65 years or older and have thirty-five (35) or more years of continuous ACerS membership.

Corporate (varies): Gain exposure to a global community of ceramic and glass professionals, utilize the vast technical resources available to individual members, all while supporting your industry.

Where do you see yourself? ACerS will help you get there!
