WHO YOU WILL FIND ATTENDING THE 12TH ADVANCES IN CEMENT- BASED MATERIALS 2022

Cement is the key ingredient in concrete—the most-used building material in the world—so every advance in understanding how it behaves presents an opportunity to reduce greenhouse gases, advance construction engineering, and improve quality of life around the globe. The 12th Advances in Cement-Based Materials 2022 event will bring together leading global experts from universities, industry, research and development laboratories, and government agencies to collaboratively interact and explore advancements and the future of this key material.

Hosted and organized by:
